I. GENERAL SAFETY PRECAUTIONS

Before Using Your Beverage Cooler for the First Time:

Carefully read all instructions before using this beverage cooler for the first time. Also make sure the beverage cooler stays in an upright position during transportation. After removing the appliance from its packaging, make sure it is in good condition. If there are any issues with the beverage cooler, please contact an authorized service center immediately.

- Place the appliance on a level floor surface that will be strong enough to support it when it is at full capacity. To level the beverage cooler adjust the leveling feet located at the bottom of the appliance.
- Do not use this beverage cooler in applications for which it is not intended. Damage that occurs from improper use or from unauthorized repairs will void the warranty.
- For proper air circulation, please maintain a 2-inch minimum clearance in between the back of the wine cooler and the wall.
- Do not operate this beverage cooler in excessively moist or humid environments.
- Keep the beverage cooler away from direct sunlight.
- Keep the beverage cooler away from hazardous materials or combustible/flammable substances.

★ CAUTION:

- This beverage cooler is only designed for freestanding applications.
- **DANGER: RISK OF CHILD ENTRAPMENT:** An empty beverage cooler can be dangerous to children. Remove any latches, lids, locks, and/or doors from unused or discarded appliances to prevent child entrapment and suffocation. Never allow children to operate, play with or crawl inside this appliance.

IV. OPERATING YOUR BEVERAGE COOLER

Initial Setup

Remove exterior and interior packing materials and connect the beverage cooler to a power supply. Once it is plugged in, let it run for at least 30 minutes. Do not change the temperature or adjust any settings at this time.

Temperature Adjustment

Your beverage cooler can be set to your desired temperature. The unit's temperature range is 34°F to 64°F (1°C to 18°C).

Avoid setting the thermostat too high or the beverage cooler may be unable to achieve satisfactory cooling temperatures. The temperature scale runs from 1, the warmest setting, to 7, the coldest. The 0 position is an OFF setting which can be used when the beverages cooler is standing empty. When storing beverage in the beverage cooler, keep them away from the rear wall. To allow free circulation of cold air don't pack beverages too tightly on the shelves and never put hot food in the beverage cooler

V. OPTIMIZING PERFORMANCE

- To ensure maximum performance and efficiency, be sure to place your beverage cooler in an area where there is proper air circulation. Also make sure the plumbing and electrical connections are correct.
- Allow for proper clearance around the beverage cooler. Below the are the recommended clearances:

Sides: 3/4" (19 mm)

Top: 4" (100 mm)

Back: 2" (50 mm)

- For proper internal air circulation, do not overfill your beverage cooler.
- Do not place the unit in direct sunlight.
- Do not place heated beverages in your beverage cooler.
- Do not store perishable food in your beverage cooler. The unit's interior temperature may not be low enough to prevent spoilage.
- Do not place heavy objects on top of the beverage cooler.

VI. MAINTENANCE

- Shut off the power supply before cleaning the unit's cabinet.
- Remove all cans and storage shelves.
- Clean the unit's interior with a warm water and neutral detergent solution.
- Thoroughly dry all surfaces.

Please Note:

- a. Do not use abrasive cleaners to clean the beverage cooler.
- b. Use mild, soapy water to the clean the unit's door seal.
- c. To ensure efficient operation, also thoroughly clean the back and bottom of the beverage cooler.

VII. TROUBLESHOOTING

LIMITED MANUFACTURER'S WARRANTY

This appliance is covered by a limited manufacturer's warranty. For one year from the original date of purchase, the manufacturer will repair or replace any parts of this appliance that prove to be defective in materials and workmanship, provided the appliance has been used under normal operating conditions as intended by the manufacturer.

Warranty Terms:

During the first year, any components of this appliance found to be defective due to materials or workmanship will be repaired or replaced, at the manufacturer's discretion, at no charge to the original purchaser. The purchaser will be responsible for any removal or transportation costs.

Warranty Exclusions:

The warranty will not apply if damage is caused by any of the following:

- Power failure
- Damage in transit or when moving the appliance
- Improper power supply such as low voltage, defective household wiring or inadequate fuses
- Accident, alteration, misuse or abuse of the appliance such as using non-approved accessories, inadequate air circulation in the room or abnormal operating conditions (extreme temperatures)
- Use in commercial or industrial applications
- Fire, water damage, theft, war, riot, hostility or acts of God such as hurricanes, floods, etc.
- Use of force or damage caused by external influences
- Partially or completely dismantled appliances

Obtaining Service:

When making a warranty claim, please have the original bill of purchase with purchase date available. Once confirmed that your appliance is eligible for warranty service, all repairs will be performed by a NewAir™ authorized repair facility. The purchaser will be responsible for any removal or transportation costs. Replacement parts and/or units will be new, re-manufactured or refurbished and is subject to the manufacturer's discretion.

For technical support and warranty service, please email support@newairusa.com.
